Thank you for choosing MobileNetSolution for your web development needs. To help us better serve you, we have compiled a list of questions that will be the foundation of your website strategy. It will also help us to get a better understanding of your company, online goals as well as your website design requirements. In other words, it takes a lot of guesswork out of the process.

Please take a few moments to fill out this form in detail (as much as you can) – save it - and return it to contact@guaranteed-site-one-on-google.co.za.

3. Purpose of your website

3.1 What is the main purpose of your website?

Click here to enter text.

4. Design

4.1 Please describe the style or "look and feel" for your website.

[Click here to enter text.](#)

4.2 Have you come across any other websites that have that "look and feel"?

(Please list them & explain what part of the website you like – for example, you might like the header of one website and the way the content is laid out of another website)

[Click here to enter text.](#)

4.3 Logo (preferably in .ai/.psd/.png/.jpg/.gif file format)

- I have the original graphic design files
- I have a logo in 'gif' or 'jpeg' format
- I will have a new logo designed
- I would like MobileNetSolution to design a new (simple) logo

4.4 Who will provide content for the website?

*The more content you can provide us **before** we start working on a concept design, the better. Sometimes designing a website is also playing around with the content.*

- I will have professionally prepared text mailed to you by a content writer.
- I will have the entire text ready in a text file for each page
- I will send you images to use for the website
- I would like MobileNetSolution to arrange images that can be used on the website

5.1 How many pages will your website have?

- A Brochure Website (1 page)
- Less than 5 pages
- Between 5 and 10 pages
- 10 or more pages

6. Site Structure

We usually design the navigation scheme in collaboration with our clients by gathering all the content together and discussing how best to group the information to allow easy user navigation and achieve the primary objectives of the site. However you might not have all your content together at this stage, so to allow us to work out the scale of the project it will help us if you can name the major areas of your proposed site.

6.1 Are there any ideas on the proposed navigation scheme?

- We have already created a navigation scheme in-house (if so, please provide us this document)
- We have a rough idea of how we would like to arrange the navigation scheme but would like advice
- We would like MobileNetSolution to create the navigation scheme

6.2 Navigation Labels:

Describe the main navigation labels for your site. (See example below)

Click here to enter text.
